

VRS

Vacuum Rotary Connection

Industry-specific applications

The VRS Series Vacuum Rotary Connection, with its robust and lightweight design, provides an in line rotary connection for vacuum supplies.

Its continuous rotation system avoids coiling of the hose and eliminates force constraints when used with collaborative robots.

Advantages

- Compact and lightweight
- Excellent mechanical resistance
- Continuous rotation
- Ideal for cobotic

Characteristics

Model	Flow Rate (NI/min)	Through bore Ø (mm)	Maximum speed (tr/min)	Connection	 (g)
VRS34MF	52.97	16	40	G3/4"-M/F	135

Specifications

Materials	aluminum - NBR nitrile - steel
Temperature range	From 14 to 122 °F

Dimensions

To order please specify: VRS34MF

Accessory

Vacuum Rotary Union part n° VRU34A50
